

Hari Satya Narasimha Andey

Software Quality Engineer | Selenium Java Automation

□ Hyderabad, India
□ Email: harisatyanarasimha@gmail.com | □ Mobile: 9848756485 |
□ LinkedIn: <https://www.linkedin.com/in/harisatya/>

Professional Summary

Software Quality Engineer with **3.92 years of experience at Infosys**, specializing in **Selenium automation using Java and C#, BDD Cucumber**, and **API automation with Rest Assured**. Proven ability to deliver high impact results, demonstrated by building a **complete AI evaluation framework (DeepEval)** independently for a client AI application, earning **client appreciation, Outstanding rating, and Commendable rating**. Strong in automation framework design, test strategy, and adaptable across technologies.

Technical Skills

Automation Testing: Selenium WebDriver, BDD Cucumber, TestNG, Page Object Model (POM)

Programming Languages: Java, C#, Python

API Testing: Rest Assured (Java)

Performance Testing: JMeter

AI / Testing Tools: DeepEval (AI evaluation framework)

Testing Types: Manual Testing, Regression, Smoke, Sanity, API, Automation

Defect Tracking: TFS

Methodologies: Agile (Scrum)

Professional Experience

Infosys Ltd Software Quality

Engineer | 3.92 Years

Project: SPS

- Completed **Accelerate enablement**, gaining hands-on experience in **Selenium automation using Java (BDD Cucumber)** and **API automation using Rest Assured (Java)**, which enabled a smooth transition into the **SPS project**.
- Worked primarily on **Selenium automation using C#** for web application testing within the SPS project.

- Executed **automated regression test suites** and supported **manual testing** activities including test case design, execution, defect tracking, smoke, sanity, and regression testing.
 - Independently designed and implemented a **complete AI evaluation framework using DeepEval** to evaluate a client AI application, focusing on accuracy, relevance, consistency, and hallucination risks.
 - Enabled systematic and repeatable AI quality validation, reducing manual evaluation effort and improving confidence in AI outputs.
 - Received **direct client appreciation** for technical ownership and quality delivery.
 - Achieved an **Outstanding performance rating**, followed by a **Commendable rating** in subsequent review cycles.
-

Key Achievements

- Selected into the core project based on strong performance during Accelerate enablement.
 - Built and delivered a **production-ready AI evaluation framework** independently.
 - Received **Client Appreciation** and an **Exceptional Performance Certificate** for high-impact delivery and ownership in **GenAI & AI Assurance**.
 - Earned **Outstanding** and **Commendable** performance ratings.
 - Appreciated by client for innovative, quality-driven solutions.
-

Education

Bachelor of Science (MPC)

Aditya Degree College, Adikavi Nannaya University
Year of Passing: 2019 | CGPA: 8.2

Intermediate (MPC)

Aditya Junior College, Board of Intermediate Education
Year of Passing: 2016 | Percentage: 85.4%

SSC

St. Mary's High School, Board of Secondary Education
Year of Passing: 2014 | CGPA: 7.8

Additional Information

- Immediate joiner / As per notice period
- Flexible with shifts and locations
- Strong learning mindset and adaptable to new technologies
